

OLUCHI KACHIKWU

oluchikachikwu@gmail.com | (646)730-8383 | [LinkedIn Profile](#)

Cybersecurity professional with 4+ years of SOC experience, specializing in incident response, threat intelligence, security analytics, and privileged access management (One Identity Safeguard). Skilled in 24x7 operations, on-call support, and SLA management.

Technical Skills

- ❖ **Incident Response & Threat Detection:** SIEM tools (Splunk, Trellix), IDS/IPS solutions, Network Security (FireEye NX), EDR/EPP solutions (CrowdStrike, FireEye HX), forensic tools (Wireshark), Data Loss Prevention (DLP)
- ❖ **Security Tools:** Zscaler (ZIA, ZPA), Next-Generation Firewalls (NGFW), PowerShell scripting for automating SOC tasks, Proofpoint (TAP, Security Awareness Training), Windows, ServiceNow, Rapid7 VM, Privileged Access Management (One Identity Safeguard)
- ❖ **Threat Intelligence & Analysis:** Threat Intelligence Platforms (TIPs), SOP development, phishing assessments
- ❖ **Networking Fundamentals and Cyber threat frameworks:** TCP/IP, Networking ports and protocols, OSI model, Cyber Kill Chain, MITRE ATT&CK

Professional Experience

Extern, Remote

Sept 2024 - Oct 2024

Security Education and Awareness Content Developer

- ❖ Employed AI-driven cybersecurity tools to analyze 500+ threat indicators, improving proactive security by 35% through real-time insights and actionable recommendations.
- ❖ Developed and executed threat intelligence strategies that enhanced organizational security posture by improving detection and response effectiveness by 30% and delivering over 100 intelligence reports to support informed decision-making against evolving cyber threats.

Coty Inc, New York, NY

Sept 2022 - Jun 2024

Information Security Analyst

- ❖ Optimized Zscaler Internet Access (ZIA) and Zscaler Private Access (ZPA), enhancing network security, improving remote employee connectivity for over 10,000 users, and reducing false positives by 45% through optimized threat detection and response workflows.
- ❖ Maintained technical documentation, including incident response playbooks, vulnerability scan reports, and Standard Operating Procedures (SOPs) for security investigations, standardizing workflows and improving response times by 25% for more efficient incident handling.
- ❖ Leveraged PowerShell scripting to automate repetitive SOC tasks, reducing manual workload by 25% and shortening incident response times; continuously enhancing capabilities with foundational Python skills for integration into threat analysis workflows.
- ❖ Reduced Mean Time to Contain (MTTC) by 40%, cutting incident resolution time from 5 hours to 3 hours through real-time monitoring and triage of security incidents using FireEye and SIEM tools, significantly enhancing threat response efficiency.
- ❖ Conducted in-depth cyber threat intelligence analysis and forensic investigations on over 1,000 incidents annually, utilizing tools like SIEM, IDS/IPS, NGFW, NDR, EDR/EPP, MDR, and TIP, which improved proactive threat mitigation strategies by 40% through effective mapping of adversary TTPs.
- ❖ Spearheaded organization-wide security awareness campaigns, engaging over 5,000 employees via targeted platforms and laptop lock screens, reducing security incidents caused by user error by 30%.
- ❖ Improved security and compliance posture by 30% by implementing One Identity's Safeguard for Privileged Access Management, reducing the risk of privileged account misuse and unauthorized access.
- ❖ Configured and managed privileged account policies, including session control, access restrictions, and password rotation—resulting in a 95% reduction in access-related incidents and 100% compliance with organizational standards.
- ❖ Developed and enforced access request workflows, streamlining approvals and reducing access request processing time by 50%, while ensuring secure and controlled resource access.
- ❖ Monitored and recorded privileged sessions for auditing and compliance purposes, delivering detailed reports to stakeholders and supporting regulatory requirements.

[United States Citizen]

- ❖ Troubleshoot and resolved privileged access issues, maintaining 99.9% system uptime and ensuring optimal performance across PAM environments.

Tata Communications (America) Inc, Matawan, NJ

Jan 2022 - Aug 2022

Information Security Specialist

- ❖ Identified over 20 emerging cyber threats per quarter, reducing the organizational attack surface by 40% through comprehensive threat intelligence research and proactive mitigation strategies.
- ❖ Improved breach containment and response times by 25% by utilizing host and network forensic tools to identify root causes of security breaches.
- ❖ Ensured log retention and storage compliance, enabling forensic investigations and regulatory adherence.

Care Design, New York, NY

Nov 2019 - Jan 2022

Security Operations Center Analyst

- ❖ Monitored security logs and alerts using SIEM tools, ensuring timely detection of cyber threats.
- ❖ Investigated log anomalies and suspicious events, correlating data across sources to detect potential security incidents.
- ❖ Assisted in log transportation and ingestion optimization, enhancing log visibility for SOC teams by 40%.
- ❖ Developed standard logging schemas for security-relevant events, aligning logs across IT infrastructure.

Education

Bachelor of Science in Banking and Finance, *University of Benin*

Equivalent to a U.S. bachelor's degree according to World Education Services, NYC

Upwardly Global Professional Development program for foreign-educated immigrants (NY)

CompTIA Security+ SY0-601 (May 22, 2023)

CompTIA IT Fundamentals+

2023

Infosec Network Traffic Analysis for Incident Response

2024

Scrum Master Certified, International Scrum Institute

2019

PROFESSIONAL DEVELOPMENT & INDUSTRY INVOLVEMENT

- ❖ **Volunteer:** Toastmasters Public Speaking club, (Treasurer and Virtual Meeting Coordinator)
- ❖ **Conference Participation:** Attended Black Star event in NYC and actively volunteered as a mentor to college students at the Women in Cybersecurity conference in Dallas (2025)
- ❖ **Continuous Learning:** Enrolled in TryHackMe hands-on cybersecurity training to enhance skills.
